Microsoft
Microsoft Copilot
(formerly Bing Chat Enterprise)

Employees want AI-powered chat, but companies have data security and privacy concerns

92% of technical professionals and business decision makers say they **have used or tried an AI tool or service**

Employees using AI-powered chat through public web services are putting **corporate data at risk**

Some large corporations **discouraged employees from using AI tools** because of data leakage risks

Empower users to do their best work, safely

Elevate creativity and productivity with AI tools

+

Protect business data

Copilot

with commercial data protection

Generally available

When signed in with Entra ID:

Chat data is not saved
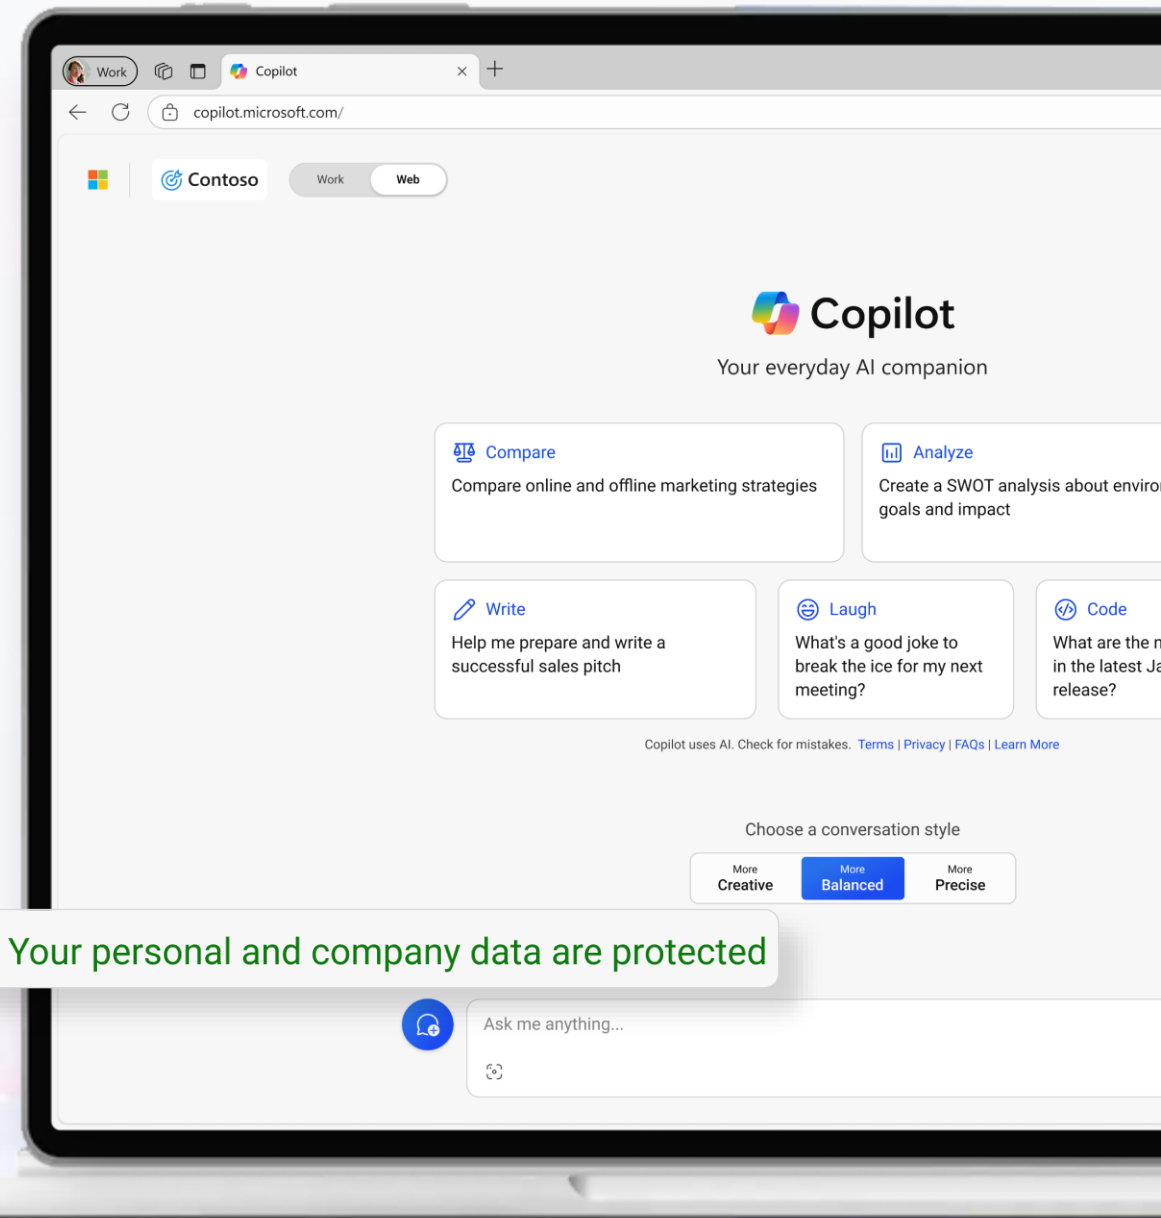

Chat prompts and responses are discarded.

No eyes-on access

No one at Microsoft can view your data.

Data is not used to train the model

Chat data is not used to train the large language models used by AI.

As of Dec. 2023, Copilot is generally available. For more information about product terms, check out aka.ms/Copilot/Universal

Copilot.microsoft.com

Why Copilot?

It's powerful and protective

Access to powerful AI models

- Built on GPT-4 and DALL-E 3, the advanced AI models
- No additional cost with Entra ID

Transparent and current

- Citations provided for each response
- Responses sourced with up-to-date information

Commercial data protection

Business data is protected

- Included with Entra ID
- Chat data is not saved
- No eyes-on access
- Chat data is not used to train the model

Putting both tools to work for your organization
